Education

Bahria University

Islamabad, Pakistan

BS Software Engineering — 6th Semester

2023 – Present

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, OOP, Web Technologies
- **Merit Scholarship** – awarded for outstanding academic performance
- **Prime Minister Laptop Scheme** – national award for top-performing university students

Punjab College, Blue Area

Islamabad, Pakistan

FSc Pre-Engineering

2018 – 2020

Technical Skills

Languages: C++, Python, JavaScript, Java, Bash, SQL **Web:** React (TypeScript), HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, MongoDB Atlas, Supabase **Tools:** Git, GitHub, Linux, VS Code, Jupyter Notebook

Concepts: DSA, OOP, DBMS, AI/ML Fundamentals, System Design

Projects

FYP Management System [🐙 GitHub](#)

React | TypeScript | Tailwind CSS

- Built a full-scale web platform to manage Final Year Projects with **5 role-based dashboards** for Students, Supervisors, Coordinators, HOD, and Evaluators.
- Implemented modular React + TypeScript frontend with reusable components and real-time data visualizations for project progress tracking.
- Designed end-to-end workflows covering proposal submission, peer evaluation, defense scheduling, and grade management.

CyberBank – AI-Powered Banking System [🐙 GitHub](#)

Bash | Python | Linux | Gemini API

- Built a full-featured terminal banking system with account management, transactions, and admin controls; integrated **Google Gemini API** for natural language query support.
- Engineered asynchronous voice feedback using an **FCFS priority queue** and background processes (gTTS), ensuring a non-blocking terminal UI.
- Applied core OS concepts: process management, concurrency, IPC, file-based persistence, and resource cleanup.

Code Carnival – DSA Gaming Platform [🐙 GitHub](#)

C++ | Algorithms | Database Systems

- Developed a multi-game terminal platform featuring **Chess, Snake, Battleship, Flappy Bird, and Maze Runner**, each backed by a purpose-specific data structure.
- Implemented **Minimax with Alpha-Beta Pruning** (Chess), BFS/DFS (Maze Runner), and Dijkstra's Algorithm for intelligent game logic.
- Designed a relational database schema with stored procedures and triggers for user management, leaderboards, and progress tracking.

Certifications

AI For Everyone

Coursera / DeepLearning.AI

Certificate of Completion

HTML, CSS, and JavaScript for Web Developers

Coursera / Johns Hopkins University

Certificate of Completion

Python for Data Science, AI & Development

Coursera / IBM

Certificate of Completion

Achievements & Awards

- **Merit Scholarship** – Bahria University, awarded for achieving a high CGPA (ongoing).
- **Prime Minister Laptop Scheme** – national award given to top-performing university students across Pakistan.
